

## Waterloo Field Target Club Results for May 21, 2006

We had high hopes for a great field target day and came close to it in spite of the weather. The temperature stayed a few degrees above the freezing point, it drizzled rain a few times and the wind was strong, with gusts well over 25 mph. A full 60 shot course was set up in the woods and then we proceeded to enjoy a day of shooting and socializing. The 31 difficulty factor is misleading, as the conditions certainly made it feel more difficult.

It was very encouraging to see eleven shooters show up for this early season match that also happened to fall on a holiday weekend. Ted shot his first field target match with us and had a very successful day. Josh shot an impressive score and tied George for first in the piston division. Everyone in the PCP division shot good scores. Lanny shot in a couple of matches a few years ago and is back shooting with us again. His score would indicate that the layoff did not seem to hurt him that much. Hans had gun problems right at the beginning of the match which did not allow him to finish. Everyone lost a few shot to gusts of wind and also to times when the wind seemed to stop, momentarily, just so your hold off would be wrong.

I am glad that we defied the weather and shot the match in the woods rather than on the sight-in range. The wild flowers were out and the whole atmosphere in the woods made it the best place to be. Many thanks to everyone who helped set up the lanes and tear them down at the end.

After the match, six of us met at Tim Horton's for some chili and catching up after the winter break. The season seems officially started now and that feels great.

I hope to see everyone on June 11<sup>th</sup> for our next match.
